

A reputation for excellence

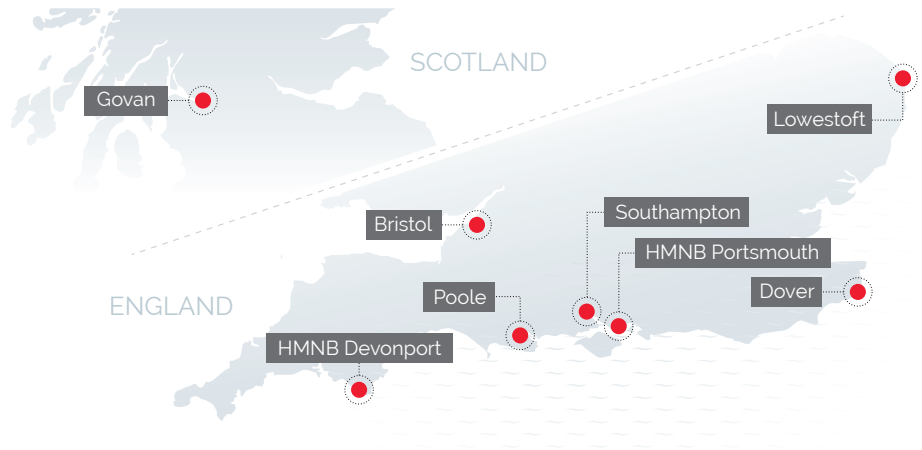

Electrical Marine Engineering  
Nationwide Electrical Support

The SMS Group has, in-house, a dedicated, experienced and capable Electrical Marine Engineering Team. The Group provides national support from its network of offices and facilities; and proudly has over 30yrs specific marine experience.

OUR MAIN MARKETS / CLIENT BASE:

- Defence
- Vessel owners and operators
- Ports and harbours
- Dredgers
- Car carriers
- Tugs
- Ferries
- Cruise ships
- Workboats
- Superyachts
- New build yards

The SMS team is multi-skilled, and are experts in fault finding and electrical repairs - available on a 24/7/365 basis. We specialise in both planned and emergency works.

RAPID RESPONSE  
0845 013 0481

Naval Support

CAPABILITIES:

The department prides itself and versatility and pedigree; there is a vast amount of electrical experience in-house, with over 30 yrs of knowledge, across a broad range of market segments - from refit and repair, fault finding, right thorough to life extension solutions and newbuild installations from fast ferries to Superyachts.

- Fault finding and repairs
- Planned and preventative maintenance
- Installations and upgrades
- Overhauls and repairs
- Refits and Ride On Squads
- Thermal imaging surveys and solutions
- In-house expertise - emergency 24/7 support
- Design and manufacturing of systems and hardware (to inc switchboards)
- Consultancy, project management and Owners representation

THERMAL IMAGING - PROTECTING YOUR ASSETS

- Our Engineers have carried out 'Pre Repair Stop Thermal Imaging Surveys' on numerous commercial vessels; Defence works also include: the River class, and Archer class vessels, for the MoD
- SOLAS Surveys for 'hot spots' on Cruise ships and Superyachts
- Complete Surveys of large shore-side sites / assets covering all Electrical Distribution Systems

THE CUSTOMER JOURNEY

We're proud of being different, we're proud of being SMS. We aim to take each and every customer on the following six stage journey.

EXPERIENCE

We share our own experience and our knowledge. We aim to illustrate knowhow, capability and trust.

RELATIONSHIP

We establish a personal relationship, and then we understand the customers exacting requirement.

PLANNING & PRICING

We plan the job, price the job, educate and inform the supply chain. We complete risk analysis and then we revert to the customer.

VALIDATION

As a team we peer review; and then we complete full customer validation.

PARTNERSHIP

We agree contractual terms as partners; collaboration is the key to successful delivery.

DELIVERY

The Project Manager - appointed on day one, has the relationship and experience; and they fully manage all the supply chain deliverables and complete the turnkey project.

Our customer journey not only depicts how we deliver, it illustrates how we care. The personal touch is at the heart of The SMS Group.

## KNOW HOW - WHERE IT COUNTS

The electrical team within The SMS Group have system specific experience and know how where it counts:

- Machinery alarm and control systems
- Lighting and domestic system automation
- Navigation and communication systems
- Fire detection systems
- AV / IT, telephony and security systems

## HARDWARE SUPPLY

The SMS Groups electrical division is particularly well-placed to support the supply of electrical hardware in a very competitive fashion (especially if supported by an install). Hardware supply includes, but is not limited to:

- Lighting both interior/exterior in traditional incandescent and fluorescent and highly efficient LED luminaire
- Lighting control systems
- Installation hardware - cables, cable tray, cable glands, etc
- Battery charging, distribution and inverter systems
- Installation hardware / mounts / bespoke fabrication
- Machinery alarm systems
- Bilge monitoring systems
- Fire detection systems
- Power generation
- Power distribution
